

Porter-Cable 382 Sandpaper Replacement

For this guide we will be tackling the simple task of removing and replacing the sandpaper from the sanding pad.

Written By: Nick O'Sadcia

Step 1 — Sandpaper

- First things first you are going to need a new piece of sandpaper which will need to be 5" 8 hole velcro (hook and loop) at your desired grit size.

Step 2

- Once you have a new piece of sandpaper remove the old one by simply pulling it of the pad as shown.

To reassemble your device, follow these instructions in reverse order.
